

# RLS-1 ROTARY LIMIT SWITCH

**LEES TECH**

www.leestech.com

The RLS-1 rotary limit switch controls the movement of industrial/commercial roller doors and grills and similar types of machinery.

## Features:

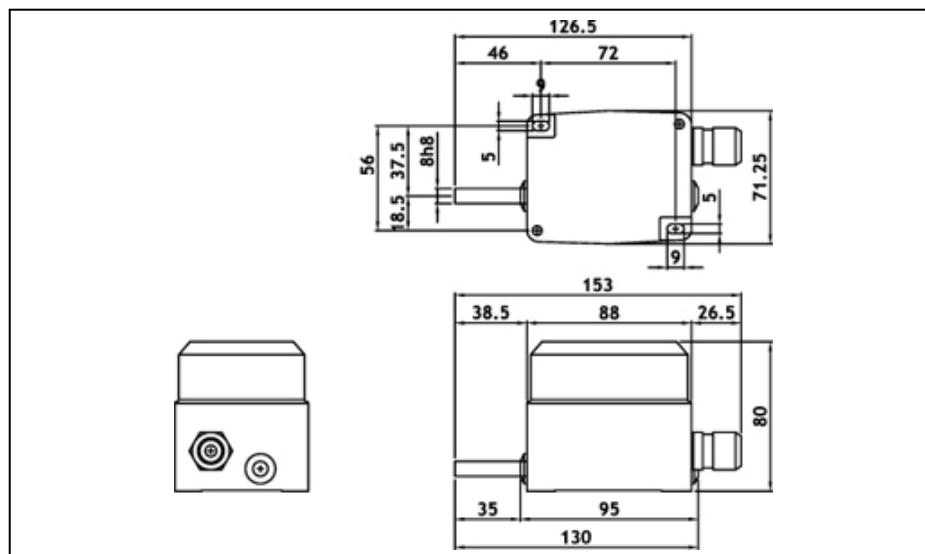

RLS-1 comprises a stainless steel worm shaft operating 2 micro switches rated for control circuit up to 440VAC.

- Revolution ratio is 1:50
- Suitable for use indoors or outdoors
- Compact dimensions
- Cams can be set very accurately
- Cable gland for cable entry
- Faston type connections
- Ø8.0 Input shaft

## Technical Specifications

Operational temperature	-25°C/ +70°C
Degree of protection	IP 65
Insulation category	Class II
Utilisation category	AC15
Rated operational current Ie	3A
Rated operational voltage Ve	440VAC
Mechanical life	1x10 <sup>6</sup> operations
Standards	EN60528 EN60947-5-1
